Arthritis Foundation Exercise Program is a low-impact physical activity program proven to reduce pain and decrease stiffness. The routines include gentle range-of-motion exercises that are suitable for every fitness level. Weights, balls and TheraBand's are used in this class.

SilverSneakers Stability is designed to help you become stronger and improve balance. The movements taught in class focus on specific exercises to improve strength and power around the ankle, knee, and hip joints, while improving your reaction time. This class is designed for fall prevention and is suitable for nearly every fitness level. A chair may be used for balance and support.
